What do you have for breakfast every morning? My family and I like "bread" so much, and we have it every morning. We have our favorite "bakery" near our house and we often buy bread there.

One Sunday morning, I went to the bakery with my mother to buy some bread. I saw a "young woman". She "just started to work there". When I bought my first bread from her, I said, "I like this bread the best." She said with a smile, "I like very much, too. A lot of customers say it's delicious, so I'm very happy." I asked, "you bake bread here?" She said, "Yes. I can't do that alone, but I enjoy it. I was a good "baker and now my own bakery "somewhere. I'm trying hard for it." She looked really happy, so I thought, "I want to try something like this too." I went home and had the bread with my family for breakfast. Then, I talked to my mother and she said, "I was very happy. I want to have a dream, too."
